The Enchantments of Life: The Holosphere

with Laurence James Lucas

*What is choice? What is your life purpose and the nature of the world you inhabit?
Find out...*

Saturdays, 2.30pm to 6pm: 2 June to 21 July: Yung Shue Wan, Lamma Island
\$350 per workshop, or a special price of \$2,500 for all eight sessions if paid by 2 June

NEW! **1 The Holosphere Saturday 2 June**

The most radical, comprehensive and illuminating new map of consciousness. Be prepared to expand your mind, vision and reality beyond definitions you have heard before. This 'work in progress' is distilled from a lifetime of unusual experience, dedicated research, interactive communication and feedback. The use of 'film as myth' and other contemporary cultural examples throughout the course make enormous amounts of new information readily understandable. Plus, the expanded and updated handouts with beautiful colour images will help you integrate this profoundly inspirational body of work into your life, benefiting from it even long after the event.

NEW! **2 Cosmic Mapping Saturday 9 June**

The template of the cosmos as revealed through your astrological birth chart and an introduction to your master plan for life. Clear and illuminating explanation of astrology and its living symbolism, as you have never heard it before, empowering you to make clearer choices and value who you are. You will leave today with a deeper appreciation of the relevance of your birth moment and the nature of the contextual essence and broad choices you have made for this lifetime.

3 Your Enchanting Life Saturday 16 June

Introducing the nine evolutionary levels of human consciousness. An overall structural perspective of all human life and where you fit into it will instantly emerge for you. This introductory seminar has been presented many times internationally to great acclaim and is constantly being updated and refined—so even if you have attended before, we can say with all confidence that you will hear new information and make new connections to the web of life.

4 The Dance of Passion and Grace Saturday 23 June

Unfolding with a passion for life, then surrendering to chapter endings in our life is the key to grace. Step into the new terrain—beyond mindless materialism, beyond the New Age—to enjoy life with Intention and Mystery. In this workshop you will be reminded why the common sentiment, 'change is opportunity', is not merely an ideal, but is genuinely realizable, giving you a greater sense of how destiny is yours to implement.

5 The Emperor's Striptease Saturday 30 June

Dropping the veils of human existence to see your life and the world you live in. The updated 'Striptease' includes new information on psychology, context, language and the 'first breath'—the almost instantaneous appearance of the manifest world which moves beyond the speed of the mind. Awaken to the consciousness of 'transparency' and learn to recognize how extensively the assumptions of Life create our actual experiences in every moment.

6 Babylon Sings Saturday 7 July

Your miraculous life as a mirror of human evolution, the glorious decay of history and the reclamation of mystery. History as an epic you never experienced at school. From Sumer to Ancient Egypt and Greece; from Socrates to Plato and Pythagoras; from the Renaissance and the Reformation to the Restoration; from the Enlightenment to Darwin and beyond. This workshop, now expanded to include a more detailed examination of the historical process, will help you see the pattern of unfoldment and further appreciate the ancient world and its continuing echo in our lives today.

7 The Realm of the Ring Lords: Awakening to the Holosphere Saturday 14 July

The ancient and modern life we live today and the challenge of our divinity. Gain a heightened sense of awe as the perfection of the world as it *is* can be seen. Learn how technology and nature, philosophy and raw shamanism, futurism and the archaic fit together in harmony. This workshop expands upon the understanding of the Holosphere, and will help you appreciate the poetic beauty and dramatic adventure of Life that overrides cold technology.

8 The Matrix of the Mystics: Generating the Holosphere Saturday 21 July

The living mythologies that confront our definitions of what is fact and what is fiction. Now expanded to include exciting proposals about DNA, electromagnetism, crystals, computers and alien life forms, based on scientific studies not yet integrated into the consensual paradigm. This is for the adventurous and, dare we say, courageous investigators of truth. Reality is a game. Come to this workshop to download the updates you need for your neural network to play in the world post 2012.

All workshops include astrological examples from your own chart so that the multileveled nature of reality is made personally relevant.

*For those who have done some or all of the **Enchantments of Life** before, please note that the Holosphere (Saturday 2 June) and Cosmic Mapping (9 June) are totally new components of the course. Also, all other components have been greatly expanded and updated, so even though the same material will be covered, there will also be a lot more! Please contact me if you would like more details on what workshops you have already done and what might be the most useful for you to do this time.*

While Parts 1, 2 and 3 can be taken as standalone workshops, it is highly recommended to do the whole journey to benefit most from the course!
